

WORKSHOP A: Workshop on Microscale/Small Scale Chemistry

Date July 16, 2024 (14:00-17:00)

Join us for an immersive workshop where you'll meet esteemed experts in microscale/small-scale chemistry from across the globe. Each country will showcase its own table(s) featuring thrilling experiments for you to discover.

Prepare to be captivated by engaging demonstrations and lively discussions on various techniques and groundbreaking ideas in high school and university-level chemistry. We'll explore both organic and inorganic chemistry, tackling challenging topics such as electrochemistry and analytical chemistry.

But here's the exciting part – you won't just observe from the sidelines. You'll have the opportunity to actively participate and conduct the experiments yourself! This workshop is all about diving headfirst into the captivating world of chemistry.

Countries represented by esteemed experts include:

- **Germany** (Angela Kohler, from Romain Rolland Gymnasium, Berlin)
- **Japan** (Kazuko Ogino, from Tohoku University)
- **Mexico** (Jorge Ibanez, from Universidad Iberoamericana, Mexico)
- **Philippines** (Fortunato Sevilla, from University of Santo Tomas)
- **Republic of South Africa** (Marie du Toit, from North-West University)
- **Thailand** (Supawan Tantayanon, from Chulalongkorn University)
- **United Kingdom** (Bob Worley and Magda Polec, from CLEAPSS)

Plus, we'll have some teachers from Asia, including **Vietnam, Indonesia, Nepal, Sri Lanka, and Thailand**, adding to the diverse perspectives and experiences shared at the workshop.
